

Where ideas work

**BC Public Service
Ministry of Transportation and Infrastructure
Multiple Locations in British Columbia**

Engineer-In-Training (EIT) / Geoscientist-In-Training (GIT)

Are you a recent graduate with your Bachelor's or higher degree, focused in civil or structural engineering, looking to earn your professional designation?

We are currently hiring multiple full-time EIT positions in various locations across British Columbia.

The Ministry of Transportation and Infrastructure's EIT program provides the opportunity to gain applied technical experience throughout British Columbia by moving you through multiple rotations in various locations over the course of the program. This dynamic range of experience will provide you with an opportunity to train, develop and grow professionally through challenging work assignments.

Please visit our comprehensive EIT [web page](#) for more information about this opportunity.

These opportunities apply to **recent graduates (*within the last 5 years or those about to graduate in the Spring 2017*)** with a Bachelor's or higher degree in engineering with a focus on highway, traffic, planning or structural disciplines.

EIT Job Opportunities may include the following engineering specializations:

Highway Design
Structural
Transportation Planning
Traffic Engineering

Potential Work Locations:

Prince George
Kamloops
Coquitlam
Victoria

If you are ready to embark on an adventure where you will gain valuable career-building experience, please learn more and find out how to apply by January 23, 2017:
