

At Jorey Electric Ltd, we value our team members and know that they are key to our success. We are a family owned company with 40 years of experience delivering Electrical Engineering and Electrical Contracting services in and around Winnipeg, and we take pride in the high-quality work and value we provide to our customers.

Are you a recent or upcoming grad who is a great team player, diligent in your work, and looking for a company who will support you as you grow? Come and build your career with us!

ELECTRICAL ENGINEER (EIT)

Location: Winnipeg, Manitoba

Type: Full-time

Start Date: May 2017

Closing Date: February 3, 2017

As an Electrical Engineer (EIT), you will be mentored by a Professional Electrical Engineer and see the direct impact of your work on the company. As your project management and technical skills develop, you will have the opportunity to take on larger and more complex projects. We have a friendly, flexible and high-performing team, and we offer a competitive compensation and benefits package. Your main responsibilities in this position will include:

- Design and produce electrical schematics, conceptual designs and construction drawings using AutoCAD LT
- Learn and apply knowledge of electrical engineering, building codes and design principles, including calculating building electrical loads, power distribution, lighting, communication, and fire alarm systems
- Prepare and submit design drawings, applications and other paper work to appropriate regulatory bodies, and follow up as required
- Prepare feasibility, summary of recommendations, and other reports for clients to assist in higher level planning and decision making
- Attend client meetings and site visits, and coordinate with other professionals

PREFERRED SKILLS

- Conscientious, with strong attention to detail, prioritization and organizational skills
- Quick learner with ability to retain and apply new information
- Strong critical thinking, analytical and problem solving skills
- Experience with office software such as MS Office (Outlook, Word, Excel, etc.)
- Excellent verbal and written communication skills in English
- Self-motivated, high level of initiative and sound judgment
- Ability to build positive relationships with clients, coworkers and external contacts
- Additional IT/computer skills would be considered an asset

JOB REQUIREMENTS

- Bachelor of Science in Engineering (Electrical) or equivalent, completed by Spring of 2017
- Eligibility to register as an EIT with APEGM
- Experience using AutoCAD LT or similar program
- Driver's License and access to a vehicle (no bus service)
- Some travel within Manitoba may be required

To apply, send your Resume & Cover Letter, with salary expectations to HR@JOREYELECTRIC.COM attention: Tasha Ellis, HR Consultant by Friday, February 3rd, 2017.
