

Company:

Ininew Limited Partnership was originally founded as Ininew Project Management Ltd. in 1990.

Ininew provides project management services to First Nation clients in conjunction with INAC, Health Canada, CMHC and various private companies in planning and implementing capital projects in a manner which is responsive to First Nations individual needs and aspirations. We also provide feasibility studies, engineering design, survey and drafting for the full range of capital projects in First Nation Communities.

Job Title: Project Manager

Office Location: Winnipeg, MB

Job Description:

Ininew LP is seeking a registered professional engineer (civil or municipal or related) licensed to practise in Manitoba (and qualified to register in Saskatchewan). The individual must have a minimum of 3 years experience related to First Nation Projects both rural and remote. Project experience related to infrastructure such as water and sewage treatment systems, water and sewage distribution systems, roads, schools, public buildings, etc. is ideal.

Individual must also meet the following qualifications:

- Effective leadership skills, organizational skills, strong project technical and analytical skills with the ability to successfully resolve a variety of client, project and technical issues;
- Excellent written and verbal communication and presentation skills, for preparation of correspondence, reports and proposals;
- Strong computer skills, including a working knowledge of scheduling, word processing and spreadsheet software applications;
- Flexibility to work outside normal business hours as required and willing to travel to project sites and hold a valid license;

Responsibilities may include, but not limited to the following:

- Provide project management services for active projects
- Complete proposal submissions for government agencies RFP's
- Actively seek other project opportunities
- Assist in the production of various reports or studies (feasibility studies, environmental site assessments, etc.)
- Provide inspection services for various capital projects
