

*The City of Winnipeg is a vibrant and dynamic organization with many opportunities!  
We offer a diverse and welcoming work environment that delivers quality services to our citizens.*

## **Design and Specification Engineer**

Water and Waste Department

Posting #: 115247

**Closing Date: Tuesday May 23, 2017**

As the Design and Specification Engineer, you will coordinate the production of designs, preparation of contracts and undertake project management for capital and current budget works relating to expansion and rehabilitation to Department infrastructure using in-house staff and outside specialist consultants. You will manage and coordinate the preparation, updates and revisions to the Standard Construction Specifications for Underground Works to reflect enhancements to construction and materials and methods.

**As the *Design and Specification Engineer* you will be:**

- Undertaking and coordinating project studies, designs and specification preparation for infrastructure extension and rehabilitation
- Overseeing and managing the delivery of assigned Capital projects in accordance with City of Winnipeg policies and procedures
- Managing and maintaining the Underground Works Section of the Standard Construction Specifications (SCS)
- Monitoring and undertaking research in the development of new and revised water and sewer infrastructure standards and specifications to enable assessment for applicability to Winnipeg and for incorporation into the SCS
- Administering projects' capital budgets and expenditures

**Your education and experience includes:**

- Bachelor's Degree in Civil Engineering
- Professional Engineer designation
- Three years prior experience directly related to the duties of the position; an equivalent combination of training and experience will be considered
- Demonstrated experience in the design and contract administration for the expansion or rehabilitation of municipal infrastructure works
- Thorough knowledge of materials and methods as applied to construction of municipal services and structures
- Demonstrated ability to establish and maintain effective working relationships with City staff, consultants, contractors, suppliers, Councillors and the public.
- Ability to communicate effectively in both technical and non-technical written and verbal reports.

**Conditions of employment:**

- A Police Information Check satisfactory to the Employer will be required from the successful candidate, at their expense
- Valid Manitoba Class 5 Driver's Licence
- The successful applicant may be required to provide a vehicle for transportation while on City business, subject to the terms and conditions of the City Transportation Policy

If **YOU** are interested in this exciting opportunity, please submit your application, including a detailed resume, online at <http://winnipeg.ca/hr/> OR, by mail quoting **Posting #: 115247 - Design and Specification Engineer** by **4:30 pm on Tuesday May 23, 2017** to: **Recruitment Clerk, Water and Waste Department, 1199 Pacific Avenue, Winnipeg, MB, R3E 3S8.**

The salary range for this position is \$2,669.48 - \$3,585.65 bi-weekly.

We have great benefits and competitive salaries, and we are committed to ongoing learning and career development!
