

Project Engineer

Technical Service Division
 Outlook, Saskatchewan
 Competition Number: WSA-07-2017/18

Are you passionate about doing meaningful work? Do you care about water as one of our most important resources? Water Security Agency is seeking an enthusiastic Project Engineer to join our team.

As a Project Engineer you will provide professional engineering services and support in the investigation, design, construction and rehabilitation of all types of water management projects. You'll conduct field inspections, design projects, prepare cost estimates, technical documentation and drawings, meet with regulators, landowners and other stakeholders, administer contracts, provide site supervision and manage the work of engineering consultants.

Your clients will be both internal and external, like rural municipalities and consultants and internally you will work among a diverse and passionate team of professionals from fields including various disciplines of engineering, water quality, ecology, law, sociology, and public policy to name a few, that are leading this exciting challenge in our province.

The successful candidate will possess a Degree in Civil Engineering or a similar engineering discipline, a licence to practice professional engineering from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) and 4 years of related experience.

Note: Applicants with the required education but lesser experience are encouraged to apply as they may be considered for a Project Engineer-in-Training position.

An innovative approach to Water Management

Water Security Agency (WSA) is a unique organization in Canada - bringing together all of government's core water management responsibilities in one place. We manage the province's water supply, regulate drainage, own and operate 49 dams and related infrastructure, write water policy and law, build needed scientific knowledge, assess water quality, assess ecological health, develop and deliver water programs, manage interjurisdictional water agreements, protect water quality, ensure safe drinking water and treatment of wastewater, reduce flood and drought damage, protect aquatic habitat and provide information about water.

We offer rewarding career opportunities, competitive salaries and a comprehensive benefits package. To learn more about the work we do and this position, visit wsask.ca.

To Apply:

Please submit a cover letter, quoting the competition number **WSA-07-2017/18**, and detailed resume, by **May 30, 2017** to:

**Human Resources
 Water Security Agency
 111 Fairford St. E.
 Moose Jaw, SK S6H 7X9
