

**CITY OF STEINBACH
Municipal Engineer
Posting #2017-24**

Reporting to the City Engineer, the Municipal Engineer will perform routine and complex technical engineering related work for private development designs, design and construction of streets, bridges, water and sewer pipelines, water and sewage treatment plants, sports and cultural facilities, and parks. Assist the City Engineer in application of principles, methods, and techniques of Municipal engineering technology.

Qualifications:

- Graduation from a four-year college or university with a degree in civil engineering, with experience in Municipal Engineering.
- Minimum of three years related experience as an Engineer in Training (EIT) or Professional Engineer (P.Eng.) with a minimum of two years in a Municipal Engineering environment.
- Thorough knowledge of civil engineering principles, practices and methods as applicable to a municipal setting.
- Thorough knowledge of applicable City policies, laws, and regulations affecting division activities.

The City of Steinbach encourages a work/life balance and promotes lifelong learning. A condition of employment is a satisfactory Criminal Record Check.
