

Where ideas work

**BC Public Service
Ministry of Transportation and Infrastructure
Multiple Locations**

Engineer-In-Training (EIT) / Geoscientist-In-Training (GIT)

Are you a recent graduate with your Bachelor's or higher degree, focused in civil or electrical engineering, looking to earn your professional designation?

We are currently hiring full-time EIT positions in various locations across British Columbia.

The Ministry of Transportation and Infrastructure's EIT program provides the opportunity to gain applied technical experience throughout British Columbia by moving you through multiple rotations in various locations over the course of the program. This dynamic range of experience will provide you with an opportunity to train, develop and grow professionally through challenging work assignments.

Please visit our comprehensive EIT [web page](#) for more information about this opportunity.

These opportunities apply to **recent graduates (*within the last 7 years or those about to graduate in Spring 2018*)** who currently possess or who will possess upon successful graduation a Bachelor's or higher in Electrical Engineering or a Bachelor's or higher in Civil Engineering with a focus on **transportation and/or highway safety**

Available Positions:

Traffic and/or Highway Safety Engineer: 1 position (Location flexible)

Electrical Engineer: 1 position (Location Coquitlam)

Hydrotechnical Engineer: 1 position (Location flexible)

If you are ready to embark on an adventure where you will gain valuable career-building experience, please learn more or apply here by January 28, 2018:
