About Us

- A growing 15-person Civil Consulting Engineering firm in Nanaimo, BC
- Strong work ethic and reputation for excellent client service since 1995
- An attractive environment in an oceanfront community on Vancouver Island

What We Offer

- Lots of work to keep everyone challenged
- A team of committed professionals who enjoy working together to achieve common goals
- Competitive salary and an excellent benefits package
- Opportunity for growth and ownership

About You

- Minimum 15 years of experience as a Professional Engineer
- Eligible for registration with Engineers and Geoscientists BC (EGBC)
- Working knowledge of AutoCAD Civil 3D; excellent Microsoft Word, Excel and Outlook skills
- Design and project management experience in municipal servicing infrastructure, roads and site grading

Your Work With Us

- Manage projects for municipal infrastructure, commercial and residential developments
- Coordinate support staff, other consultants and third party utilities to prepare detailed design drawings through to approval for construction by regulatory bodies
- Coordinate and attend meetings with clients, contractors, municipal, regional and provincial approval authorities
- Prepare design calculations and design reports relating to storm water management, sanitary sewer and water systems for review by approval authorities
- Prepare construction cost estimates at various project stages
- Prepare tender and contract documents
- Administer contracts including review of progress claims, preparation of progress certificates and management of lien holdbacks
- Prepare fee proposals for potential projects
- Communicate clearly and concisely, both orally and in writing, with clients, consultants, contractors and approval authorities
