

Canadian Kraft Paper  
**The Pas, Manitoba**

**Environmental Engineer**

Canadian Kraft Paper offers a work environment that promotes diversity, embraces change, and encourages continuous growth and development for every team member. We offer a workplace where everyone plays an essential role in the success of our Company and where individual efforts are acknowledged. We are seeking a skilled professional to fill this role, and if you thrive in a dynamic and challenging environment, we want you to be a part of our team!

We are a team, who works together to face challenges, develop effective strategies and explore new opportunities. We are committed to building systems that support operations and process improvement initiatives that are mutually beneficial to our customers, our company and our community in a cost effective, environmentally responsible, and safe manner.

**POSITION OVERVIEW:**

The Environmental Engineer will work closely with the Environmental Superintendent, providing environmental support to management and staff, meeting regulatory requirements, contributing to strategic planning, process changes/upgrades and budgets. Through the analysis of environmental data, the Environmental Engineer will provide recommendations to ensure compliance with federal and provincial environmental regulatory requirements.

**RESPONSIBILITIES WILL INCLUDE:**

- Monitor the daily operation of the effluent treatment system
- Provide timely environmental reporting (annual/monthly)
- Liaise with external agencies on specific environmental issues.
- Responsible for coordinating and submitting of necessary applications to comply with regulations
- Coordinate environmental effects monitoring (EEM) studies and sublethal toxicity testing as per the federal P&P Effluent Regulations. Analyze data and provides recommendations
- Update the emergency response plan and controlled products inventory annually.
- Assist as needed with the implementation process of WPH&S regulations and assist with Material Safety Data Sheet (MSDS) Library
- Analyze and implement initiatives to strengthen the Environmental Management System
- Remain current and aware of upcoming environmental regulations

**QUALIFICATIONS:**

- University degree in Environmental/Chemical Engineering or Environmental Science from an accredited institution
- Minimum of five years' experience in an environmental role
- Demonstrated focus on safety
- Knowledgeable with respect to environmental and workplace safety and health regulations
- Must possess a demonstrated ability of report writing, problem solving, organizational and risk management skills.
- Excellent understanding of Microsoft office is required

**Canadian Kraft Paper** offers competitive wages and a group benefits package that helps take care of you and your family; including health, dental, life and AD&D insurance. Providing a company sponsored pension plan, is another way that we help provide a future for our employees. Canadian Kraft Paper understands that what defines a person is more than just their career; that's why we support a work/life balance, so that you can live the life that makes you.....YOU!

#### **LIVING IN THE PAS:**

The Pas community is one of the oldest and most striking settlements in Northern Manitoba. It is truly a place to call home for all those that love the outdoors with an abundance of activities such as skiing, hiking, ATV and snowmobiling, camping, boating, hunting and fishing! Boasting one of the three true blue clear lakes in existence, its raw natural beauty attracts visitors from around the world.
