Job Description – Senior Structural Engineer

November 26, 2018

Full-time, permanent
Pier Solutions
Location: Dugald, Manitoba

Join Pier Solutions as we provide collaborative, quality and innovative bridge engineering and construction services across Manitoba and Saskatchewan. With aging infrastructure and limited public budgets, municipal and provincial governments are forced to strategically extend the lifespan of their infrastructure, namely bridges. Pier Solutions strives to work alongside jurisdictions, tailoring bridge maintenance and construction solutions to specific contexts. Find out more about us at www.pier-solutions.ca.

Join a company, where your creativity, experience, expertise and leadership shape the course of a small and growing company.

Qualifications:

- Professional structural engineer registered with APEGM or APEGS
- Demonstrated engineering and construction experience over a minimum of ten years
- Exceptional interpersonal, leadership and training abilities

Experience in any of the following; not all required:

- Project management
- Timber, concrete or structural steel design
- Structural inspections
- Business
- Practical construction skills
- Methods of bridge maintenance and construction

Character:

- Inherent integrity and quality of work
- Innovative and creative style
- Team player; keen to learn and contribute

Other provisions:

- Continual professional development
- Excellent benefit plan, including dental, vision and a flexible health spending account

Application:

Please submit your resume to evan@pier-solutions.ca. Feel free to contact Evan if you have any questions. The position is open until filled by an exceptional candidate. Please email us if you intend to apply.
