

Where ideas work

**BC Public Service
Ministry of Transportation and Infrastructure
Multiple Locations**

Engineer-In-Training (EIT) / Geoscientist-In-Training (GIT)

Are you a recent graduate with your Bachelor's or higher degree, focused in civil, electrical, geological or structural engineering, looking to earn your professional designation?

Positions are under-implemented at the Licensed Science Officer (LSO) 1 - Salary: \$47,317.12 - \$59,098.27 annually, plus 7% Overtime Shift Standby (OSS) that can be taken as time or pay.

Currently, there are a total of 8 (eight) positions available within the entire 2018/2019 EIT program. There are 6 job postings which applicants must apply directly to.

The Ministry of Transportation and Infrastructure's EIT program provides the opportunity to gain applied technical experience throughout British Columbia by moving you through multiple rotations in various locations over the course of the program. This dynamic range of experience will provide you with an opportunity to train, develop and grow professionally through challenging work assignments.

Please visit our comprehensive EIT [web page](#) for more information about this opportunity.

These opportunities apply to **recent graduates (within the last 7 years or those about to graduate in the Spring 2019)** with a Bachelor's or higher degree in engineering with a focus on highway, traffic, planning, electrical, geological or structural disciplines.

EIT Job Opportunities may include the following engineering specializations:

- Highway Design
- Structural
- Geotechnical
- Electrical
- Traffic and Safety
- District / Project Management

Potential Work Locations:

- Kamloops
- Coquitlam
- Nanaimo, Prince George, Kamloops, Cranbrook, Nelson, Kelowna, Williams Lake, Smithers, Fort St. John and Terrace if applying on the District / Project Management Engineer

If you are ready to embark on an adventure where you will gain valuable career-building experience, please learn more or apply here by January 28, 2019:
