JOB TITLE: WATER RESOURCE ENGINEER

POSITION OVERVIEW

This position will primarily focus on hydrotechnical assessments and design for various drainage management systems, including hydraulic structure design. Experience in the assessment of bridges, control structures, diversions, fish ladders and box culverts would be considered an asset.

REQUIREMENTS

- Registered Professional Engineer with EGM
- Minimum 8 years' experience in Water Resource Engineering preferred
- Valid Class 5 driver's licence
- Excellent written and verbal communications skills
- Familiarity with using AutoCAD and working with survey information including LiDAR
- Proficiency in HEC-RAS modeling
- Hydrologic analysis and detailed hydraulic modeling
- Report writing

SBC offers a competitive salary, comprehensive benefit package and a positive work environment. If you believe this opportunity matches your skill set and capabilities, please email your resume and covering letter to:
