

## Welcome to Engineers Geoscientists Manitoba's Summer Scavenger Hunt!

This scavenger hunt is designed to inspire Manitobans of all ages to think about the engineering and geoscience activities and projects all around us that affect our day-to-day lives, habits, communities, the Earth and waterways, and all of their inhabitants.

We have provided you a list of items related to engineering and geoscience which can be found in most locations across the province. If you are not familiar with an item on the list, ask someone who might know what it is and/or look it up online.

Once you find it, ask yourself: *how does the presence or absence of this item affect you/your community/world/environment?*

Next, take a picture, and post it to Instagram, Facebook, or Twitter. **If it is safe to do so, include yourselves in the picture! Do not compromise your safety to get the picture.**

Be sure to include @EngGeoMB and #EngGeoMBScavengerHunt in your caption. Feel free to include a short description of what you found and tag the location to share your find with others.

Find or learn about at least 40 of the 65 items on the list and register at <https://bit.ly/2CfTVwb> for a chance to win one of two \$100 gift cards to either [Toad Hall Toys Inc.](#) or [McNally Robinson Booksellers](#). Love taking photos? A third \$100 gift card will be awarded for the best photo.

BONUS: Follow us on social media @EngGeoMB to earn an extra entry into our contest and to see if we share your photos.

If you don't have regular access to the Internet, mail your checked-off list to us at:

Engineers Geoscientists Manitoba  
870 Pembina Hwy  
Winnipeg, MB, R3M 2M7

Don't forget to include your name, return address, e-mail address, and phone number.

**Good luck and have fun learning about engineering and geoscience in Manitoba!**

### Contest Rules:

The scavenger hunt will run from July 15 to September 30, 2020.

Participation is open to all however, prizes available to residents of Manitoba only (two of the three prizes will be drawn at random).

By participating in this scavenger hunt, you give Engineers Geoscientists Manitoba the right to use your photos in current and future communications. Please contact [DWawryk@EngGeoMB.ca](mailto:DWawryk@EngGeoMB.ca) with any questions.

This scavenger hunt is not endorsed, sponsored, or administered by Facebook, Instagram, nor Twitter nor are they associated with this scavenger hunt. We also release Facebook, Instagram, and Twitter from any responsibility to entrants or participants.

# 2020 Scavenger Hunt

Access ramp	Electric or hybrid car	Rapid transit corridor
Beach	Electricity meter	Riverbed slope – stabilization or erosion
Bicycle	Engineered/constructed wetland	Road construction/repair
Bike path	Excavation	Rock outcropping
Biomass energy	Farm machinery	Satellite
Boardwalk	Float plane	Scaffolding
Boat dock or port	Foundation (any kind)	Sedimentary rock – fossils
Bridge	Garden box	Sidewalk control joint
Building envelope details: overhangs, eavestroughs, downspouts, kickouts on buildings, flashing	Geothermal energy	Skateboard
Bus	Greenhouse	Skate park
Calculator	Helicopter or landing pad	Solar panel
Canoe, kayak, boat	Hunting stand/blind	Splash pad
Charging station	Hydro-kinetic energy (micro-hydro) turbine	Stethoscope
Clay	Limestone (any form)	Straw bale wall
Combustion vehicle	N-95 mask	Swinging bridge
Computer	Natural tunnel or cave	Teepee
COVID-19 test swab	Pedestrian countdown signals	Traffic lights
Crane	Phone	Trailer
Detectable tiles	Plane or runway	Water or well pump, pumphouse
Drainage (storm drain, recreation field, culvert, ditch, water/river diversion, floodway)	Play structure	Water treatment plant or technology
	Power line	Wigwam
	Rammed earth wall	Wind turbine

**Ask yourself:** *How does the presence or absence of this item affect you/your community/world/environment?*

Post your picture to Instagram, Facebook, or Twitter and include [@EngGeoMB](#) and [#EngGeoMBSavengerHunt](#) in your caption.
