

Civil Engineer, Indigenous Communities Practice

Surrey, BC

About the Opportunity

Our established Surrey office is looking to add a capable and enthusiastic Civil Engineer / Consultant to the existing team of professionals providing quality service with our Indigenous clients in the Fraser Valley. Municipal / Infrastructure engineering is an integral part of our diverse practice at Urban Systems. In this role, you will benefit from the support of industry professionals while working on exciting and challenging projects that make a visible difference in many communities including local governments and First Nations.

We are looking for someone who shares our values and is excited to provide a high level of service for our clients. Coupled with the diverse learning and project experience opportunities, some of your key responsibilities will include the following:

- Hone your civil engineering skills, apply theory, and provide workable solutions for infrastructure planning design and planning, including roadways, water, sanitary, drainage, and housing.
- Connect our First Nation clients in the Fraser Valley, through continuous client relationship strengthening and active listening, to funding opportunities and the diverse breadth of services at Urban Systems (and beyond) including, but not limited to, Infrastructure Planning and Engineering, Active Transportation Planning and Engineering, Community Planning, Land Economics, Governance Policy, Economic Development Strategy.
- Build and grow relationships with existing project leaders and clients; proactively and professionally communicate with contractors, co-workers, clients, and the general public, providing trusted advisor and client liaison services.
- Prepare technical reports, plans, studies, proposals, and presentations.
- Coach and mentor younger professionals and collaborate with others to continue building our team.
- Preparing, with our design team, design drawings, construction details, specifications, cost estimates and contract documents.
- Collaborate with a diverse and interdisciplinary team of professionals to identify and support market opportunities, practice planning, and team development.
- Develop proposals, work plans, and budgets in response to clients needs and objectives.
- Collaborate with colleagues to prepare engineering designs, cost estimates, capital and implementation plans, risk assessments, and related documentation; and
- Coordinate the efforts of multi-disciplinary teams through the development of concepts, detailed designs, and preparation of tender documents and contracts.

To ensure a successful launch, you will be partnered with coaches and peers, who will help you gain experience across the breadth of our interdisciplinary practice locally and across the company to become a successful consultant and engineer at Urban Systems.

About You

The right candidate for this opportunity will be a Civil Engineer with a minimum of 7 years of experience and be registered or eligible for registration as a professional member with EGBC. In addition, the following attributes would be considered a benefit to this role:

- You have experience in, or are interested in, working with Indigenous communities, and municipalities in the Fraser Valley.
- Demonstrate a commitment to ongoing personal and professional development.
- Ability to effectively deliver our services within multi-disciplinary, fast-paced, multi-year projects.
- Desire to take initiative and seek out opportunities to collaborate with people of varying backgrounds and perspectives.
- Ability and desire to collaborate and communicate with clients and internal teams, with the perspective of developing, in parallel to engineering experience, a consulting mindset.
- A keen interest in coaching and mentoring others.
- Ability to work on multiple projects at a time and thrive in a self-directed work environment.

About Us

Urban Systems is an employee-owned inter-disciplinary community consulting firm with deep Canadian roots. We are united in our mission to transform communities everywhere into vibrant places where people want to live today, tomorrow, and forever.

At Urban Systems, vibrant communities are everything—including our own work community. Since 1975, we have grown to more than 550 people with 15 offices across Canada. Every day, our purpose-driven team works closely with our clients and their communities to deliver impactful work. We are proud to work with diverse clients, including Indigenous communities, all levels of government, commercial and residential land developers, and the natural resource sector.

Our Commitment to You

Are you looking to take on new challenges and opportunities to create lasting impact in your community? Join a tight-knit team of professionals at Urban Systems where your skills, contributions, and ideas are valued and recognized. Here's what you can expect working with Urban Systems:

- **Create Lasting Impact.** You'll have a multitude of opportunities and exposure to work on diverse and challenging projects that will create lasting impact on communities for generations to come. *98% of Urban Systems employees believe that the work we do is important. Join a team of like-minded leaders and work together to bring to life impactful community projects.*
- **Competitive Pay.** Your skills and contributions are valued. You'll receive competitive compensation, extended health, dental, and vision care coverage.
- **Paid Time Off.** We understand the importance of taking time off to recharge and spend time with loved ones! Enjoy competitive paid vacation, in addition to statutory days off throughout the year. We also support new parents by offering parental leave top up.
- **You're in Good Company.** Build relationships with a dynamic, accountable, and engaged team fueled by our shared purpose. Every branch facilitates connection with a series of events, and we get together company-wide annually to celebrate and recognize all employees.
- **Flexible Hours & Work Environment.** You have a life outside of work! We offer flexibility in your work schedule and work environment to help you do your best work and meet your commitments.
- **Saving for the Future.** To help you achieve your goals for retirement, we offer a Long-Term Matching Program to aid in your financial success by matching your contributions to an RRSP or TFSA.
- **Work with Inter-Disciplinary Teams.** Amazing things happen when you mix creativity, curiosity, teamwork, and a strong desire to collaborate and innovate. You will be part of diverse, inter-disciplinary teams to deliver important work for our clients and their communities.
- **Mobility Choices.** We walk the talk in building sustainable communities. Our Surrey and Vancouver offices are located at Skytrain stations for convenient access by transit. At Urban Systems, we also pay for 100% of your monthly transit fare.
- **Beautiful Office and Work Environment.** Do your best work in office spaces designed with your needs in mind. Each of our 15 offices has its own unique personality and design. Our Surrey office is located in the King George Hub, an innovative community in which business, transit and community can vibrantly co-exist. Our office has unique perks such as: free gym, bike storage and showers for those that choose to cycle to work.

How to Apply

If this describes your background, skills and attributes, please visit our [website](https://urbansystems.ca) for more information and submit your resume and cover letter. If it doesn't describe you exactly, but you feel you are well suited to this opportunity, we encourage you to apply.

Urban Systems is an equal opportunity employer. We strive to create an inclusive culture for all employees. Our clients come from all walks of life, and so do you. We believe that diversity and unity amongst our teams leads to building vibrant communities.
