Professional Engineering Opportunities in Project Management

Manitoba Hydro is consistently recognized as one of Manitoba's Top Employers!

Great Benefits

- Competitive salary and benefits package.
- Defined-benefit pension plan.
- Nine-day work cycle which normally results in every other Monday off, providing for a balanced approach to work, family life and community.
- Flex-time and partially remote work schedule (providing the option to work remotely two days per week), depending on nature of work, operational requirements and work location.

Manitoba Hydro is a leader among energy companies in North America, recognized for providing highly reliable service and exceptional customer satisfaction. Join our team of Manitoba's best as we continue to build a company that supports innovation, commitment and customer service.

Manitoba Hydro delivers a diverse portfolio of projects to support our customers' needs. Examples of projects involving:

- Generation Assets
- Transmission Assets
- Distribution and Gas Assets

We invite interested and qualified candidates to apply for professional engineering opportunities with a focus on project management. As a Project Engineer, you will be responsible for project related services from the pre-planning phase through to the closure for assigned projects. Please note, this Professional Engineering Opportunity is being reposted to ensure all interested candidates have the opportunity to apply. All applicants who had previously applied (to the June or August 2022 postings) are still being equally considered. We sincerely appreciate all interest!

The ideal candidate will possess:

- A four-year degree in Civil, Mechanical, Biosystems, Geosciences, or Electrical Engineering from a University of recognized standing.
- PMP designation and/or training will be considered an asset.
- Strong organizational and leadership abilities.
- Experience related to projects associated with Generation Operations facilities and operations would be an asset.
- Experience related to projects associated with significant equipment upgrades or unit overhauls would be an asset.
- Strong computer skills including experience with scheduling software, and the Microsoft Office suite of software.
- Mature judgment and proven ability to carry out assigned duties with a minimum of direction and supervision.
- Knowledge of Manitoba Workplace Safety and Health Act and associated regulations.
- Demonstrated experience in performing all expected supervisory responsibilities such as performance reviews, personal development plans, interviews, discipline, etc.
- Demonstrated ability in providing mature leadership and delegating authority related to planning, organizing and motivating the activities of a group of engineers and technical support staff.
- Demonstrated ability to maintain harmonious working relationships and interact effectively with others at all levels, both inside and outside the Corporation.
- Demonstrated high degree of initiative and ability to interact effectively with others at all levels, both inside and outside the corporation.
- Demonstrated application of Project Management theory in an engineering or construction environment.
- Possess and maintain a valid Province of Manitoba Driver's Licence.

NOTES/COMMENTS:

- May be required to travel and work outside normal business hours.
- Responsibilities and classification will be commensurate upon qualifications and experience.
