Junior to Intermediate Civil Engineer

We have an opening for a candidate to assist us in making a real difference for the land, the people, and the communities of First Nations.

We are looking for an individual who is a critical thinker and passionate about improving society. They are able to deliver a sustainable and socially responsible solution in a substantial, economical and professional manner.

Responsibilities and Skills include:

- Bachelor's Degree or Masters in Civil Engineering (optional).
- Five to Ten years' experience as project designer and project manager.
- Must be registered or can be as a Professional Engineer (P. Eng.) in Manitoba.
- Must be able to work comfortably in a team environment. Doing what is required and delegating to team members.
- Ability to lead construction/project administration.
- Prepare documents for civil projects and reports.
- Prepare monthly project progress reports.
- Preparation of proposals.
- Planning and organization of project meetings and presentations.
- Able to manage multiple projects.
- Excellent written and verbal communication skills.
- Prepare civil design for underground utilities and above ground; roads, grading, sewer and water.
- Support mentorship and development of junior staff.
- Able to solve issues which may arise throughout projects.
- Salary is commensurate with experience.

Closing date for this opportunity is January 25, 2023.

If you're interested in this opportunity, please submit cover letter and Curriculum Vitae to Brett Doerksen through email at Bdoerksen@ayshkum.ca
