

Job Title: Structural Engineer

Location: Southeast Manitoba, Canada

Employer: Grunthal Lumber

Company Overview:

We are a leading design company specializing in residential, agricultural, and light commercial engineering projects. Our dedicated team is committed to delivering innovative and sustainable solutions that exceed client expectations. As we continue to grow, we are seeking a skilled and motivated Structural Engineer to join our dynamic team in Southeast Manitoba.

Position Overview:

As a Structural Engineer, you will play a vital role in the design and analysis of various projects, ensuring their structural integrity and compliance with industry standards. Collaborating with a talented team of professionals, you will have the opportunity to work on diverse projects, contribute to their success, and make a lasting impact in the local community.

Responsibilities:

- Conduct structural analysis and design for residential, agricultural, and light commercial projects
- Prepare comprehensive engineering plans, calculations, and specifications
- Perform site visits and assessments to evaluate structural conditions and provide recommendations
- Collaborate with architects, contractors, and other stakeholders to ensure effective project coordination
- Review and analyze project proposals, identifying potential risks and offering mitigation strategies
- Stay updated with current engineering codes, standards, and industry best practices
- Provide technical guidance and mentorship to junior team members
- Maintain accurate project documentation and records

Qualifications:

- Must be a registered engineer in the province of Manitoba
- Bachelor's or Master's degree in Structural Engineering or a related field
- Proven experience in structural analysis and design, preferably in residential, agricultural, or light commercial projects
- Some proficiency in using engineering software such as AutoCAD, Revit, or similar tools
- Strong knowledge of relevant building codes, regulations, and industry standards
- Excellent problem-solving and analytical skills
- Effective communication and interpersonal abilities to collaborate with team members and clients
- Detail-oriented with a commitment to delivering high-quality work within deadlines
- Ability to manage multiple projects simultaneously and prioritize tasks efficiently

How to Apply:

If you are a passionate and qualified Structural Engineer looking to join a dynamic team in Southeast Manitoba, we invite you to submit your resume, cover letter, and any relevant portfolio samples to byron@grunthallumber.com. Please include "Structural Engineer Application" in the subject line. Only shortlisted candidates will be contacted for further evaluation.

We are an equal opportunity employer, we encourage all qualified individuals to apply.
