## Mechanical Designer (Full Time)

### Who We Are

International Truck Body is a leading truck body manufacturer located in Winnipeg specializing in Dry Freight, Refrigerated, and Custom truck body applications. We pride ourselves on delivering high-quality products and innovative solutions to meet the diverse needs of our clients. The design of our truck bodies, trailers and enclosures is limited only by imagination.

### The Opportunity

We are launching an exciting **New Vehicle** which will add signification growth to our company and increase our presence on the world stage.

We are seeking an exceptional, motivated and professional **Mechanical Designer** to join our team. The successful candidate will be supporting us with this very special **R & D** project, on-going **Product Development** and **Production**. This role offers a fantastic opportunity to improve your technical skills while contributing to the **growth** of the company in a fast-paced and family-like environment.

The ideal candidate will be able to work within a team and under minimal supervision.

### Responsibilities

- Design and develop components for our automotive applications.
- Specify mechanical components and create detailed assembly and part drawings.
- Develop and execute test plans to verify and accept assemblies.
- Produce and maintain bills of materials.
- Analyze new concepts to evaluate cost, manufacturability, and feasibility.
- Manage and maintain as-built data for accuracy and consistency.
- Collaborate with Procurement, Production, Quality Assurance, Sales, and other departments as needed.
- Confidently and professionally represent the Company in the presence of our customer and suppliers.

### Qualifications

- Mechanical Engineering degree or Mechanical Engineering Technology diploma, or an equivalent combination of education and experience. Have or be eligible to attain CTTAM or EGM accreditation.
- A minimum of 5 years related work experience.
- Proficient with SOLIDWORKS or equivalent design software.
- Experience with SOLIDWORKS PDM.
- Excellent communication, teamwork, and problem-solving skills.
- Willingness to be hands-on and work closely with production teams.
- Strong understanding of mechanical assembly for automotive applications.
- Proven ability to read, analyze, and interpret technical procedures and governmental regulations.

### Salary and Benefits

- Starting salary will be commensurate with qualifications and experience.
- Comprehensive benefits package

If you are interested in this exciting opportunity submit a cover letter, resume and salary expectations, via email to [eric@itbtrucks.com](mailto:eric@itbtrucks.com). The posting will remain open until the position is filled.
